Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE ____ MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 February 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 23-26 is/are pending in the application.

Response to Arguments

1. Applicant's arguments with respect to amended claims 23-26 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

1. Claims 23-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yamagishi et al. (US 5,535,008) in view of Hosono (US 5,856,930).

Regarding claims 23-26, Yamagishi discloses and meets the limitations associated with a medium, corresponding method and apparatus for recording and reproducing the data structure as disclosed on the medium.

The examiner incorporates by reference the last detailed action against the claims and will address the additional claim language with respect to the last action.

The claims have been amended to further recite,

Art Unit: 2616

"wherein the data packets contained in the stream block correspond to one or more MPEG Encoded GOPs, and

- a last portion of the stream block; or
- a last portion of a data area in the stream block is configured to have a padding area for a padding packet.

Yamagishi reads on the meets the limitation of providing some padding, referred to as stuff byte or bytes in Fig. 4 F, which is part of a sector with an OF' at the end, therefore, fails to particularly disclose or suggest, the recited,

"a last portion of a data area in the stream block is configured to have a padding area for a padding packet".

The examiner Hosono which reads on having:

"a last portion of at least one data area in the stream block (recording) is configured to have a padding area for a padding packet col. 16, lines 17-39, "invalid dummy data, such as "0" or the like, is additionally recorded on the remaining sectors of the same cluster", wherein the cluster reads on the recited data area and remaining sectors are configured to record the dummy data or padding, being the last portion of the data area met by the cluster, or in the remaining sectors of the cluster or a last portion, when one GOP coded video cannot be disposed within 32 sectors of 1 cluster .. the video coded data of GOP is recorded with a plurality of consecutive clusters, therefore, meets the limitation of

- "a last portion (end sectors of a cluster) of a data area (cluster) in the stream block (recording) is configured to have a padding area for a padding packet or dummy data.

Therefore, it would have been obvious to those skilled in the art to modify Yamagishi, by incorporating handling recording of MPEG encoded data structure by recording a last portion of a data area being a cluster, met by sectors at the end of a cluster, when a GOP does not fit into one cluster to in the data area or the end of the cluster to record dummy data on the

Art Unit: 2616

remaining sectors of the same cluster, when one GOP does not fit into one cluster or strides over a cluster, as taught by Hosono.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
